PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of combined hands-on experience across internship, freelance, and full-time development, building production-ready web applications and job portal solutions. Skilled in React.js, ASP.NET Web API, C, MySQL, RESTful APIs, JWT authentication, stored procedures, and Admin CMS development. BCA graduate (CGPA 8.9) seeking a Full Stack / .NET + React Developer role to build secure, scalable, and high-performance web applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, React Router, React Hooks, Tailwind CSS, Bootstrap, Responsive Design

Backend: C#, ASP.NET Web API, ASP.NET Core, ASP.NET MVC, .NET Framework 9, ADO.NET, Entity Framework Core, RESTful APIs, Dependency Injection

Security: JWT Authentication, Refresh Token Rotation, Role-Based Authorization, OTP Verification, Password Encryption, Input Validation

Database: MySQL, SQL Server, Stored Procedures, Schema Design

Tools & Platforms: Git, GitHub, Visual Studio, VS Code, Postman, Swagger

Core: Object-Oriented Programming (OOP)

PROFESSIONAL EXPERIENCE

Full Stack Developer — Bluglint Solutions **June** 2026 – **Present**

Project: (skilljobz.com) — Job Portal Platform | React.js, ASP.NET Web API, ASP.NET Web Forms, MySQL

- Developed and maintained full-stack features for SkillJobz, a job portal, using React.js, ASP.NET Web API (C#), MySQL, and ASP.NET Web Forms for the Admin CMS.
- Built secure Login and Registration APIs with JWT-based authentication and role-based authorization, supporting different user roles and protected application workflows.
- Developed RESTful CRUD APIs for User Profiles, Recruiter and Company Profiles, Job Postings, Draft Jobs, and Job Applications using a stored-procedure-driven MySQL backend.
- Implemented job posting and application workflows, including draft management and automated CRON jobs for deleting expired drafts after a specified retention period.
- Developed Admin CMS modules using ASP.NET Web Forms, including session-based authentication and management features for users, roles, companies, jobs, and applications.
- Designed and integrated React.js user interfaces for Login, Registration, Recruiter Profile, and Job Posting workflows, collaborating with frontend development and Git/GitHub-based version control.
- Built responsive web interfaces, including Home, Navbar, Jobs, and Company card components, and integrated frontend workflows with backend APIs.

Freelance Project - Full Stack Developer **Feb** 2026 – **May** 2026

Project: (uniscaler.in) — Educational Portal & College Discovery Platform | React.js, .NET, REST APIs, HTML5, CSS3, Git, GitHub

- Developed REST APIs for college and university information, supporting the retrieval and management of institutional data.
- Implemented APIs for university-specific courses and student inquiry workflows, integrating backend services with the application interface.
- Built responsive React.js user interfaces for college discovery and student login workflows.
- Developed college search and filtering functionality to help students discover and explore relevant colleges and institutions.

Software Development Intern — Bluestock Fintech **Nov** 2025 – **Jan** 2026

- Developed a full-stack website with responsive user interfaces connected to backend services.
- Designed and built RESTful APIs and integrated them with the frontend for dynamic data handling.
- Tested API endpoints, debugged integration issues, and followed Git-based version control practices.

EDUCATION

Bachelor of Computer Applications (BCA) — Maharshi Dayanand University, Haryana **2023 – 2026 | CGPA: 8.9**

ACHIEVEMENTS & CERTIFICATIONS

- Merit List Holder at Maharshi Dayanand University, awarded Merit Certificates and Medals for Academic Excellence
- Completed GenAI Ready Naari Program (40 hours)
